442, 443, 447 Collets, WK50 Accessory Kit, Grease

Includes New 95-Page
Power Carving Manual

Total Value
\$332.95
Only
\$250.

Diamond Hone
for Sharpening
and Dressing

3/4" x 2" Diamond Pad on a
6" Plastic Handle.

SuperFine (blue) 1200 \$8.00 EA.
Fine (red) 600

Foredom's No. 50 Handpiece + more Chisels

Foredom's new reciprocating chisel handpiece
gives a power assist to carving projects in
all types of wood, plastic, and plaster.

- No. 50 Handpiece is sold separately or with a set of 6 chisels (AKHX550).
- Attaches to a Foredom or other flex shaft with a standard key shaft.
- Works best with the added power of a 1/3 HP Series TX or 1/8 HP Series SR motor in forward rotation only.
- Shaped like the popular 44T but has a unique and rugged textured plastic barrel and tapered aluminum tip and rear connector.
- Holds finest quality, pre-sharpened steel chisels. 22 different shapes, sold individually or in sets.
- Handpiece reaches optimum performance between 1,000 and 18,000 rpm.
- Kits with dial control, No. 50 Chisel Handpiece and 11 chisels are available for use with SR and TX motors.

Expert carvers recommend a bench top dial speed control to set a constant low speed.

DUST COLLECTOR

\$180.00

The portable DC 720 is specially designed to collect dust at the source of its creation. Adjusting the plastic doors allows the woodworker to "funnel" the dust into the air filter, thus reducing the amount of dust escaping into the air.

Some Typical Application include:

- Woodcarving with both power and manual carving equipment.
- Sanding manually or with portable sanding machines.
- Turning: Designed to be positioned behind most mini lathes.
- Adjacent to any dust producing wood working tool.

Adapter Collets \$15.00 each

Use collet adapter with different shank size accessories without having to change collets.

- HPL4-3234: 1/8" to 1/16"
 HPL4-3235: 3mm to 3/32"
 HPL4-3236: 1/8" to 3/32"
